

Teslaarsdal  
Community workers on the programme

## **ZENZELE COMMUNITY ROAD MAINTENANCE PROGRAMME**

1. The aim of this programme is to implement a road maintenance programme, which induces the maximum employment of local communities, whereby, empowerment and poverty alleviation together with an acceptable standard of road maintenance can be achieved.
2. Main Objectives:
  - a. To create long term job creation for community members.
  - b. To lower the level of unemployment in the community by engaging them into the road maintenance programme.
  - c. To identify and develop small businesses in the community.
  - d. To uplift the community by providing them with the infrastructure that they require.
  - e. To improve the conditions of existing roads infrastructure by routine and periodic maintenance.
  - f. To improve the skills and educate the youth, women, men and challenge individuals of the community so that they can improve their quality of life.
  - g. To transfer skills and provide training for the community involved in the programme.
